PUFF PUFF THE PAIN AWAY

Breathe in comfort
FDA CLEARANCE

PRO-NOX™ PATIENT-CONTROLLED INHALED ANALGESIA

Pro-Nox is a revolutionary patient-controlled inhaled analgesia designed for easy in-office use. It swiftly alleviates discomfort & anxiety, providing immediate relief in just a few breaths. Trusted by over 3,000 offices across the United States, Pro-Nox has received **FDA clearance as an analgesic gas mixing and delivery system.**

IS PRO-NOX RIGHT FOR YOUR PRACTICE?

Pro-Nox can be used for a wide range of **surgical and non-surgical procedures.** It complements local anesthetics and enhances patient comfort, potentially eliminating the need for injection numbing and reducing downtime.

Unlike traditional nitrous oxide systems, Pro-Nox™ incorporates an **'on-demand mouthpiece'**, empowering patients to regulate their gas intake.

Immediate relief from anxiety & discomfort is a hallmark of Pro-Nox™.

HOW PRO-NOX WORKS

Pro-Nox delivers a **50% oxygen and 50% nitrous oxide** mixture through a demand valve, giving patients full control. **Relief is rapid, & its effects dissipate within minutes** after discontinuation, ensuring **quick recovery.** This combination significantly reduces pain, is non-addictive, and may decrease the need for additional pain medication.

BENEFITS FOR YOUR PRACTICE & PATIENTS

- Immediate Comfort
- Reduced Medication
- Time Efficiency
- Patient Magnet
- Safe Departure
- Enhanced Safety
- Proven Effectiveness
- Speedy Recovery

Pro-Nox offers a distinct advantage over dental nitrous oxide with its unique 50/50 mixture and patient-controlled comfort.
