vialied in 2.5ml saline

This is our ideal
concentration/volume
of pure RESILIÉLLE

10 BILLION
Face maintenance &
under-eye applications

KEY BENEFITS

- **CLIA Lab Certificate** of Analysis and Conformity with every shipment per every vial
- **Xeno-free, serum-free, clinical grade**, "Off-The-Shelf" exosomes for topical use
- Exosomes suspended in saline maintain ultimate potency, **never lyophilized**
- Produced to stringent **US FDA Exosome Manufacturing Standards**

RESILIÉLLE EXOSOMES: THE EPITOME OF SAFETY AND QUALITY

Resiliélle Exosomes exemplify **safety and quality**. Sourced from healthy human Umbilical Cord **Wharton's Jelly Mesenchymal Stromal/Stem cells**, these exosomes utilize patented Stem Cell Technology. Donors undergo rigorous screenings, and each batch is independently **tested for sterility and more**.

Quantitative NanoSite300 analysis guarantees safety & efficacy. These preservative-free exosomes are the **Gold Standard**, manufactured in an **FDA-registered facility**, and **never tested on animals**. They meet clinical-grade quality standards for professionals.
